Transthoracic Echocardiography Report

Name : A Im, Mrs
MR Number : 00026375
Date of Birth : 02/10/1951 (74 y.o)
Gender : Female

Operator : dr. Gusti Ayu Temi, SpJP(K)
Study Date : 28 Februari 2026
Diagnosis : ADHF

Measurements & Calculations

BSA	1.57	m ²	IVSd	6.5	mm	MV E/A ratio	fusion	
Ao diameter	22	mm	LVIDd	49.4	mm	MV E Vel	fusion	m/s
LA diameter	42	mm	LVPWd	6.9	mm	MV A Vel	fusion	m/s
LVOT diameter		mm	IVSs	9.2	mm	MV e' septal		cm/s
LVOT VTI		cm	LVIDs	45.2	mm	MV e' lateral		cm/s
EF (teich)	19	%	LVPWs	7.9	mm	E/e' average		
EF (Biplane)	20	%	LVMI	78.9	gr/m ²	PV AccT	93	ms
TAPSE	1.2	cm	RWT	0.28		LAVi	50.5	gr/m2

Findings

ECG	Sinus rhythm.
Study Quality	The quality of the study is adequate.
Left Ventricle	LV size is dilated. Global LV systolic function is decreased, LVEF 20% (Biplane).
Right Ventricle	RV size is dilated. RV systolic function is decreased, TAPSE 1.2 cm.
Left Atrium	LA size is dilated, LAVI 50.5 gr/m2.
Right Atrium	RA size is normal.
Interatrial Septum	Intact interatrial septum.
Interventricular Septum	Intact interventricular septum.
Aortic Valve	The aortic valve is a trileaflet. There is no calcification. No AR or AS is seen. AV Vmax 0.87 m/s, max PG 3 mmHg.
Mitral Valve	There is systolic tenting of mitral valve causing mild MR, VR VC width 2.8 mm.
Tricuspid Valve	Mild TR is seen. TR Vmax 1.3 m/s ; maxPG 7 mmHg.
Pulmonic Valve	The pulmonic valve structure is normal. No PR is seen.
Mass / Thrombus	There is no abnormal mass or thrombus.
Pericardium	There is moderate localized pericardial effusion at superior RA, diameter 12 mm. No sign of cardiac tamponade.
2D Wall Motion	Akinetic at apex, mid-apicoanterior, mid-apicoseptal LV. Other segments are hypokinetic.

CONCLUSION

Reduced LV systolic function, LVEF 20% (Biplane)
Akinetic at apex, mid-apicoanterior, mid-apicoseptal LV. Other segments are hypokinetic
Mild functional MR
Mild TR with low probability of PH
Reduced RV contractility
Moderate localized pericardial effusion

dr. Gusti Ayu Temi V, SpJP(K)
Echocardiography and Cardiac Imaging Consultant
